

A large, leafy tree with a thick trunk stands in front of a brick school building. The tree's branches spread out, casting shadows on the ground. The building has several windows and a red brick facade. The sky is clear and blue.

Saint Bridget Parish School

Is like a family tree

Our trunk is firmly rooted

In the Holy Trinity

The branches are core values

Like stewardship, respect, and prayer

They draw us all together

And teach us how to care

The bark that is surrounding

Parents, staff, community

Provides love and education

Strength and stability

The leaves are all the children

Who have walked through our door

God's living examples

going out to restore

The seeds that are sown

From our family tree

Have Jesus as our model

Of what life as one should be
