

# SUICIDE

THE RIPPLE EFFECT

A film and a movement for hope and healing

The film chronicles the story of Kevin Hines, who at age 19 attempted to take his life by jumping from the Golden Gate Bridge. Since then Kevin has been on a mission to use his story to help others stay alive and find recovery.

A mother's words:  
After our 11 year-old daughter, Nola Janicki, took her own life at Meyers Middle School, we saw the ripple of pain and sadness spread wide and far through our friends, family and community. Early in our grief journey, my husband and I saw this film and it was life changing. It was important for us to hear Kevin's story of brain pain, regret, loss and his amazing journey to recovery. This film is one of hope and healing and helped our family start the ripple of celebrating Nola's life and helping others. Please come join us; Nola would be happy you came.
